

Rejuvenating Downtime

Downtime On Holidays

- Remember that many of the positive vibes from holidays actually come from the fun of the planning phase so try to dedicate good quality time to this.
- Holidays are a lovely time to relax, rejuvenate but also make sure to plan a few exciting activities like lovely meals, a ski class, a hike, a wine tasting etc. This will mean you can accumulate more great memories and it will feel like it was longer in hindsight.
- Remember that holidays can offer a good opportunity to really be a visitor (not just a tourist) and immerse ourselves and learn from a new culture.
- Leaving yourself a one day run way and return home day off can really help reduce stress around your holiday.
